

Survey Management System — User Manual

The **Survey Management System** is a comprehensive platform designed to streamline the lifecycle of survey projects. This manual provides step-by-step instructions for team members to navigate and utilize the portal's features.

Login to the Survey Management Portal

- 1. Access the **MMI Portal** by navigating to:
- 2. Click the **"Survey Management"** link or button on the landing dashboard.
- 3. Upon successful login, you will be redirected to the main **Surveys** page.

Rows are styled with **dynamic background colors** based on the survey's current status and different team (POI, Premium, Road, Building) status.

- Background Color:
 - **default / No color**: Survey is being in process and only surveyor has started working on it.
 - **Blue**: Survey and its data have been uploaded and different teams have not started working on it yet.
 - **Yellow**: Different teams may have started working on the survey.
 - **Green**: Survey is completed by each individual team.
 - **Red**: Error has been reported for the survey and it is not closed yet.
- Table Settings:

2 / 17

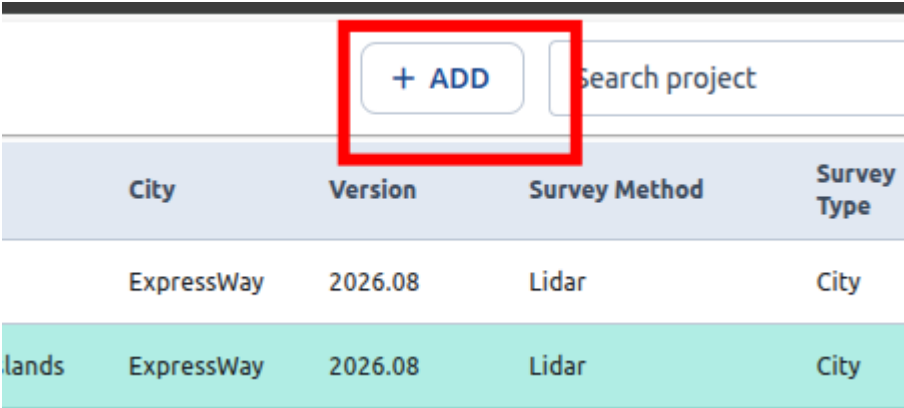

- Click on the **Settings** icon on the top-right toolbar.

- In the **Table Settings** modal, you can:
 - **Select columns** to display in the table.
 - **Reorder columns** by dragging and dropping.
 - **Sticky columns** by dragging and dropping.
- Click on the **Save** button to save the table settings.

2. New Survey Creation

1. Click the **"ADD"** icon button on the top-right toolbar.

2. Fill out the creation form and click "Submit".

4. Once created, you will be redirected to the **Survey Edit Page** to input additional metadata.

Adding Additional Survey Metadata

To register distance metrics on the **Survey Edit Page**:

- 1. Scroll down to the bottom-right section of the edit form.
- 2. Click the **Pencil (Edit)** icon next to the team metric labels.

3. In the **Add/Edit Distance Data** modal, fill in the verified KM values and click **Submit**.

3. Updating an Existing Survey

1. Navigate to the **Survey List Page** and click the **Pencil (Edit)** icon on the target survey row.

SURVEYOR

2. Workflow Page

1. Click on the tab for your designated **Team Section** (e.g., *Road Team, POI Team*).

The screenshot shows the 'Road Team' section header with a red box around the 'Road Team' tab and an eye icon. Below the header, there are two progress bars: 'Road Extraction' at 0% and 'Road Integration' at 100%. The 'Road Extraction' section includes fields for Status (WIP), Start Date (Pick Date), End Date (Pick Date), Remarks, and Total Count (0). The 'Road Integration' section includes fields for Status (DONE), Integration Date (2026-05-19), Release Version (2026.08), Multi Dizi (KM), and Single Dizi (KM). A save icon is visible at the bottom right of the 'Road Integration' section.

2. Click the **Eye (Visibility)** icon in the panel header to open the details modal.

The screenshot shows the 'Road Workflow' details modal. It contains a table with the following columns: Work Date, Distance(KM), JPG Image Count, WebP Image Count, Start Date, End Date, and Remarks. The table has five rows of data. A 'Cancel' button is located at the bottom right of the modal.

Work Date	Distance(KM)	JPG Image Count	WebP Image Count	Start Date	End Date	Remarks
2026-05-12	255			2026-05-13	2026-05-14	my remarks
2026-05-13				2026-05-10	2026-05-12	completed
2026-05-14				2026-05-13		
2026-05-15						
2026-05-16						Done

3. Review the extracted records, attributes, and distance metrics.

4. To mark integration as complete:

- Update the integration **Status** to **DONE**.
- Click the **Save** icon at the right corner of the section card.

The screenshot shows the 'Road Team' section with the 'Road Integration' status updated to 'DONE'. The 'Road Integration' section includes fields for Status (DONE), Integration Date (2026-05-19), Release Version (2026.08), Multi Dizi (KM), and Single Dizi (KM). A red box highlights the save icon at the bottom right of the 'Road Integration' section.

[!TIP] Each integration team member(POI, Premium, Road, Building) can view, edit, and update details independently, keeping progress bars synchronized in real-time.

Reporting Errors

If any discrepancies or issues are found in a survey during processing:

1. Click the **"Report Error"** button at the top of the Workflow page.

Close Submit

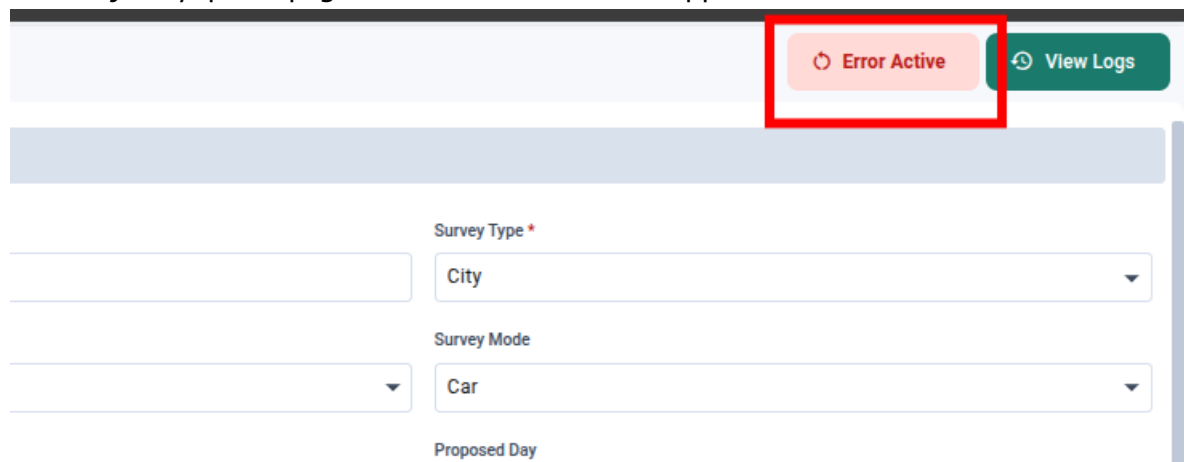

3. Enter your observations in the **Error Remarks** input field.

4. Click the **Submit** button. The survey will be highlighted to indicate an active error state.

Close Error

- If the error is reported, then the survey will be highlighted with red background in survey list page.

- In survey edit/update page **Error Active** button will appear. Click the button.

The screenshot shows a web interface for editing or updating a survey. At the top, there is a light gray header bar. On the right side of this bar, there are two buttons: a red button labeled "Error Active" with a circular arrow icon, and a green button labeled "View Logs" with a circular arrow icon. The "Error Active" button is highlighted with a red rectangular box. Below the header bar, there is a light blue horizontal bar. Underneath this, there are several form fields. The first field is labeled "Survey Type *" and has a dropdown menu with "City" selected. To the left of this field is an empty text input box. Below the "Survey Type" field is another field labeled "Survey Mode" with a dropdown menu showing "Car". To the left of this field is another empty text input box with a downward arrow. Below the "Survey Mode" field is a field labeled "Proposed Day".

- The error dialog will appear, with detail.

- Turn **off** the error found toggle and provide the remarks.
